Compliance

Multidisciplinary team with extensive **experience** in auditing, accounting, finance, legislation, and taxation. We specialize in strengthening **internal control**, optimizing **regulatory compliance**, and minimizing operational risks in public and private organizations in Peru and Latin America.

Our mission is to offer strategic solutions that generate **trust, transparency, and sustainability** in institutional management.

Key challenges, what is happening?

Identifying internal and external barriers to optimize financial management.

Lack of **external and international financing** for projects and operations.

Difficulty to maintain proper **accounting records and comply** with tax and labor obligations.

Difficulty **recovering VAT** from funds with APCI and SUNAT.

To strengthen Staff with **specialized training in administration** and finance.

Lack of **specialized equipment and strategy** to effectively raise funds.

Need for **technical proposals and a strategy that combines technical rigor** to position ourselves with cooperating organizations.

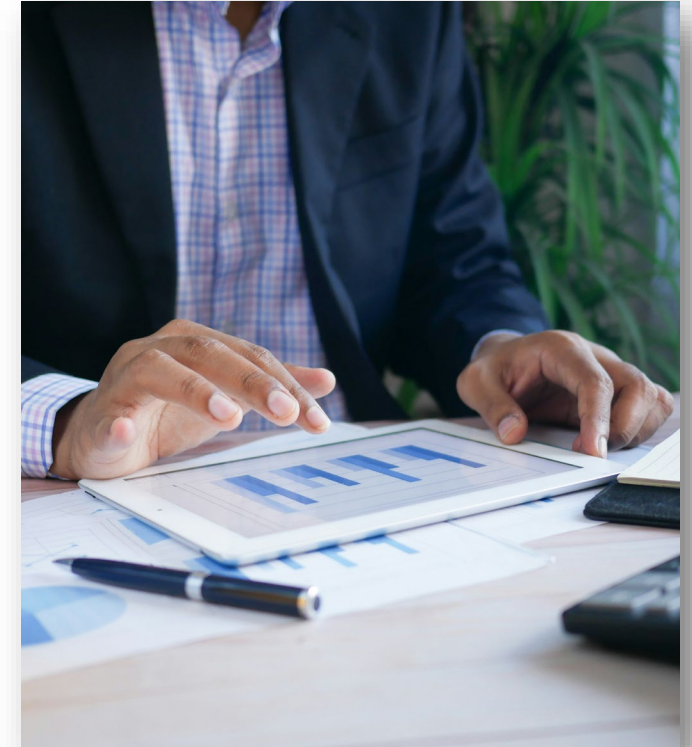

Weak **administrative and financial capacity** to manage resources without institutional auditing and projects.

Lack of **internal auditing and corporate governance** to ensure transparency and control.
